## Food Industry Degree Apprenticeship Partnership

## INDUSTRY APPROVED DEGREE APPRENTICESHIP PROGRAMMES

COMING SOON...

Degree Apprenticeships for the Food Manufacturing sector for key industry professions:

- Technical Professional (Technical, Quality and New Product Development roles)
- Food Engineering
- Operations Management

An exciting new way to grow the skills needed:

- Employers and universities working together
- High quality workplace training and learning complemented by part-time, flexible degree level study
- Attract young talent, reward and enhance the skills of existing employees

**‘Shape the future - Secure the future’**

**Make Degree Apprenticeships an integral part of your business’s strategy for success!**

Get involved in the development of the new Degree Apprenticeships:

- Developing the standards for the roles through the NSAFD
- Working with the universities to shape the new part-time degrees

*Our Industry Approved Apprenticeship Programmes are signified by our Industry Skills Mark – a guarantee that the programme is delivered inline with the specific requirements of the Food & Drink sector.*
